INTERNET USER AGREEMENT & PARENT PERMISSION FORM
GRADES 5-12**

Students are responsible for good behavior on school computer networks just as they are in a classroom or a school hallway. Communications on the network are often public in nature. General school rules for behavior and communications apply.

The network is provided for students to conduct research and communicate with others. Access to network services is given to students who agree to act in a considerate and responsible manner. Parent permission is required. Access is a privilege – not a right. Access entails responsibility.

Individual users of the District computer networks are responsible for their behavior and communications over those networks. It is presumed that users will comply with District standards and will honor the agreements they have signed. Beyond the clarification of such standards, the District is not responsible for restricting, monitoring or controlling the communications of individuals utilizing the network.

Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and insure that users are using the system responsibly. Users should not expect that files stored on District servers will always be private.

Within reason, freedom of speech and access to information will be honored. During school, teachers will guide students toward appropriate materials. Outside of school, families bear the same responsibility for such guidance as they exercise with information sources such as television, telephones, movies, radio and other potentially offensive media.

The following are not permitted and violations by result in a loss of access as well as other disciplinary or legal action:

- Sending or displaying offensive messages or pictures.
- Using obscene language.
- Harassing, insulting or attacking others.
- Damaging computers, computer systems or computer networks.
- Violating copyright laws.
- Using another's password.
- Trespassing in another's folders, work, or files.
- Intentionally wasting limited resources.
- Employing the network for commercial purposes.
